

How to put on pants

Required materials:

- Phone, Friend, Money or optionally Pants
- Legs
- Arms

*This manual will guide you through the world of pelvic wear from the standpoint of a person who has been fully uninitiated. **If you already own a pair of pants, please skip to step 14.** Since you do not own a pair of pants, you'll need to acquire one - but to do this is tricky without pants, so you'll need a friend.*

1. Locate your phone.
2. Remember your friends phone number.
3. Dial, digit by digit, your friends phone number into your phone.
4. Press call.
5. Wait for your friend to pick up their phone.
 - a. If they do not pick up, repeat step 5 until they do. 1 hour recommended interval between calls.
6. Using your eating hole, utter the following phrase "[Insert friend's name here], I wish to contract your services. I am in dire need of a pair of pants and I do not have the capability to purchase it myself because the store kicked me out last time I came in without pants. I am willing to pay you \$5 plus the cost of pants, gas, and a sexual favor, if you buy and deliver them to me. Please hurry."
7. At this point your friend should be on the way to the store and all there is for you to do is wait.
8. Once your friend returns, you are ready to begin the pants putting on process. Open the door, pay your friend, and firmly grasp your new pair of pants in your left hand.
9. Even more firmly grasp your friends hand with your right hand.
10. Maintain eye contact.
11. Move your right hand up and down.
12. Maintain eye contact.
13. Close the door, but do not lose eye contact.
14. You are ready. Enter the bedchamber.
15. Locate the waist of the pants - it is the girthiest hole.
16. Position the pants waist toward the ceiling and allow the legs to fall from the pull of gravity.
 - a. If the pant legs do not fall, you might have got a defective pair of pants. Go back to step 1.

17. Locate the zipper on the pants. It should be connected to the waist.
18. Rotate the pants so that the zipper is facing away from you and the waist is still facing the ceiling.
19. You're going to want to sit down for this next part.
20. Ready? Okay.
21. Locate your right leg and the right leg of the pants. They should be both on the same side of your body.
22. Prepare for penetration. Some people have specific rituals they perform - now is the time to do yours if you have one.
23. Right foot first, enter the right pant leg from the girthiest hole.
24. Push.
25. Go deeper.
26. Deeper.
27. So deep that you come out the other end.
28. If it's not working, push harder. It's your first time, everyone has trouble.
29. By this point your foot should be all the way out, penetrating the bottom of the pants, and the rest of the pants should be around your knees.
30. Repeat steps 21 - 29 but for your left leg and the left pant leg.
31. At this point it is important to stay seated as the pants are around your knees and you are likely to fall if you attempt movement.
 - a. If you fell before you were able to read this step, it's time to call up your friend again, this is an emergency - they will understand.
 - b. Have your friend help you up. They should grab you from behind your back, putting their arms under yours so that their hands are on your nipples.
 - c. Have your friend lift until you are able to stand again.
 - d. Since your friend is here again and you still owe them a sexual favor now is the time do it - your pants are already down.
32. Grab the pants by the waist and pull up.
33. Force alone is usually not enough, so you'll need to shimmy. Gyrate your hips and knees in opposite directions.
34. Jump up and down while maintaining constant upward force on the waist of the pants.
35. At this point the pants should be around your hips. Relocate the zipper.
36. Grip the tip of the zipper and in one stroke, make it come all the way up to the top of the pants.
37. Locate the button - it should be right on top of the zipper.
38. Take the button in your thumb and forefinger.
39. Take the buttonhole in those same fingers, but of the other hand.
40. Prepare for penetration again. Do a shortened ritual if you have one.
41. Insert the button into the buttonhole from the back of the hole.

42. Push the button all the way through.
43. You are done. If your friend is still there, ask them to confirm for you that your pants are on properly.
 - a. If your friend is not there, go outside. If your pants are not on properly a nice man in a blue uniform will let you know by giving you a free ride to a house with a bunch of other people not properly wearing their pants, - they're usually stuck on the step that brings the pants above their knees.
44. Victory screech. Yell "LEDELEDELE".
