Melville, NY 11747

Dear Hiring Manager,

I am interested in your job listing on HandShake for Junior Software Developer/Programmer. I am a Junior at Stony Brook University studying Computer Science, Math, and Philosophy.

I believe that I meet your requirements for the job. I am pursuing my B.S in Computer Science, I have experience designing and debugging software, and I am great at working with people. Over the years I have worked on numerous software projected including founding an online debate platform, programming a GUI based website maker, programming a stock trading algorithm, programming an algorithm based Light Bike replica, and programming a 2d top-down view adventure game. I have knowledge of Visual Basic - I even taught a class of 30 peers how to program in it. I am also more than willing to continue learning, especially the languages and technologies used in Health Solutions Plus.

I would love to get interviewed for your company. You can contact me any time via my email address or cell phone. Thank you for your time in reading this.

Sincerely,
Vidar Minkovsky
